Effective: 4/1/2024 (Replacing R.I.P.U.C. No. 2095 effective 1/1/24) Issued: 3/27/2024

Addendum to R.I.P.U.C. Tariff No. 2095: Renewable Net Metering Credit and Excess Renewable Net Metering Credit by Rate Class and Last Resort Service (LRS) Type (Cents Per kWh)

For the Month of APRIL 2024

Note 1: An Eligible Credit Recipient (i.e., a Net Metering Customer whose electric service account or accounts receive Net Metering Credits from a Community Remote Net Metering System) receives applicable credit values determined by the rate class assigned to the Community Remote Net Metering System and not their own rate class (i.e., the rate class of the Eligible Credit Recipient).

Note 2: Community Remote Net Metering Systems typically receive service under rate class C-06 with fixed Last Resort Service (LRS) and, consequently, the credits received by Eligible Credit Recipients are calculated on that basis. Eligible Credit Recipients should, however, confirm the rate class of their Community Remote Net Metering System(s) with their Net Metering Service Provider(s).
